ABOUT CANIRESORT COSTA BLANCA

Caniresort Costa Blanca has been operating for 23 years and is currently the largest PET RESORT on the Costa Blanca with 13,000 square meters (sq.m.) of land offering a variety of wonderful services for your pets.

WHAT DO YOU SPECIALISE IN

PET HOTEL Overnight stays including heated kennels in the winter and air-conditioned kennels in the summer, with cosy beds, warm blankets and a lot of fun playtime. Dog guests can relax in the spacious 45sq.m. individual kennels and burn off their energy during the 3 or 4 play times throughout the day. We respect the client's wishes and if they want their dogs to interact, then the team put a great deal of thought into choosing the right dogs, giving special attention to the age and temperament of each one. Smaller dogs can enjoy plenty of fun and games in their uniquely designed play garden with lots of places for them to run, hide and dig.

DOGGY DAY CARE Your dog will enjoy a full calendar of enriching activities, we offer 8 different doggy parks. We understand that every dog is different and we take our time to match individuals to the best group based on their size and play style. Open Monday to Friday from 9.30am until 5.30pm

CATTERY GARDEN Cat residents love the 300sq.m. specially designed to allow them to socialise with other cats. There is plenty of space to explore and many strategically placed platforms and trees for them to climb and scratch as well as toys, comfortable beds and boxes that they can curl up in. This is much better for the wellbeing of the cats who at other kennels are often kept in their own enclosures for the duration of their stay. They will be so busy exploring their new surroundings that they will hardly miss their owners.

SPA CENTRE The staff at the hotel also provide spa services, so if you have a busy day planned then why not book your pet in for a wellness bath or day care. There are relaxing baths including massage for the pets and a full grooming service, for all types of animals.

PET CLINIC Owners can relax knowing that the connected Pet Clinic is open 24/7 and as well as offering emergency care, the Vets offer vaccinations and specialist treatments.

WORLDWIDE PET SHIPPING If you are planning on relocating and want to ensure that your pet is transported safely and securely then Caniresort also provides a Professional Worldwide Pet Shipping service. They are experts in this field and were the first Pet Transportation Company registered in Spain.

If you do not have time to drop off or collect your pet we can send one of our VIP Transports to do this for you.

Have you always wanted to work with ANIMALS

Yes. We always had pets in our family growing up. They were part of the family. We never had a Christmas where our pets did not get a present too.

When I finished school I studied Chiromassage, but I knew always that my dream was to work with animals. My studies in Chiromassage helps me today to enjoy bathing the animals and giving them relaxing massages. The most beautiful feeling is to see a pet relaxed in my hands. I have done a lot of training around pets and their wellbeing so I can give them the best care and attention possible.

BEST thing about your job

For me there is no better job in the world. Being in nature with animals, caring for them, it is just amazing. Pets have their own unique personalities and it is a joy working with them.

Any FUNNY stories

Just last week, I had a family who were at the airport ready to check in when they realised they had forgotten to bring their pet to the pet hotel. I went to collect their dog from the airport as they were running out of time. Another client arrived with special food for his dogs stay at the hotel. He asked for help unloading his dogs from his car. When we went to the car he realised he had left his dogs and his wife at home!

MOST CHALLENGING PART OF YOUR JOB

Our motto at Caniresort is "no client or pet is too difficult for us". We specialise in looking after pets with special needs and handicaps. No matter what kind of special attention your pet needs, the team will gladly be there for them. Whether they need regular medication during the day/ night, are on a specific diet, are deaf or blind, or require additional therapies, we will look after them.

I think the most challenging thing is leaving the pets to go home. We treat them like our family so when we leave we really miss them. We sometimes have pets that stay with us for up to 2 months. We get so attached to them that it is not uncommon for us to be crying when they go home.

ANY TOP TIPS FOR ANIMAL OWNERS

Yes absolutely! Love your pet as much as you love yourself, and treat them with the same respect you get from them.

Be relaxed when you bring your pet to the hotel. Your pet can pick up on any stress or tension so if you are relaxed this makes it a better experience for your pet. Think of your pet's stay with us as their own holiday.

Caniresort Costa Blanca discovers a world of happiness for your pet. We've packed all our expertise in to designing a sanctuary that is dedicated to unleashing happiness and enriching the lives of pets and their families. I am slightly biased, but I think there is no better place.
